Acknowledgements

The work of the Headache Classification Committee of the International Headache Society was generously supported by the following companies: Glaxo, Imperial Chemical Industries ICI, Janssen Pharmaceutica, and Sandoz.

We also gratefully acknowledge financial support from: Bayer AG and from the Hässle-Astra Group.

The committee and the subcommittees have received valuable suggestions and critique from a great number of colleagues around the world. They cannot all be acknowledged individually, but their efforts have been much appreciated. We wish in particular to thank Harrison Graham Pope Jr., who participated in the first meeting of the committee as an external advisor. He generously shared with us his vast experience from psychiatric disease classification and thus helped us decide on the general format of this classification. Marcello Fanciullacci, Seymour Solomon, Frank Clifford Rose and Giorgio Bono are acknowledged for having organized our meetings.

Sheila Marr Westh has done all secretarial work for this committee since it first began its activities. She has managed this huge task along with usual duties. Her enthusiastic attitude and perfectionism is greatly appreciated.
